There are 6 countries targeted through this project: Serbia, Macedonia, Montenegro, Slovakia, Hungary and Romania, and there are 6 promoters from above mentioned countries that will be involved in implementation of this project. In total, around 30 different organizations/institutions from these 6 countries will be benefited by this project. Certainly, one of positive solutions to youth unemployment problem is entrepreneurship education and empowerment of youngsters, because today's youth needs a creative, independent, non-traditional way of thinking about business and their future employment prospects. In that sense, selfemployment needs to be more seriously considered by youngsters, as well as those providing, or wishing to provide, youth with services in area of selfemployment, as viable income-generation option and as an alternative to job seeking. The plan is build upon resources and opportunities provided by this project and to, without wasting any time, immediately follow-up on it with a Networking project that will further strengthen cross-border cooperation mechanisms when youth entrepreneurship development and promotion is concerned, and involve even up to 8 promoter organizations from the SEE region. This project especially recognizes the need for "actions in key areas that affect Europe's young people, particularly in areas of youth employment, creativity and entrepreneurship..." as it is defined by the new EU youth strategy "Youth - Investing and Empowering".
